

CFRP Core Plugs

Description

Unique in the world, exclusively by Lamiflex: 100% carbon fiber for the lowest weight and the highest reel weight load

Features

- Unique design
- Lightweight construction
- Double the weight load vs competition (ability to run heavier rolls)
- Certified maximum load for pair of core plugs - 6000kg
- CE certification
- Compliant and marked with Machinery Directive 2006/42/EC

Advantages

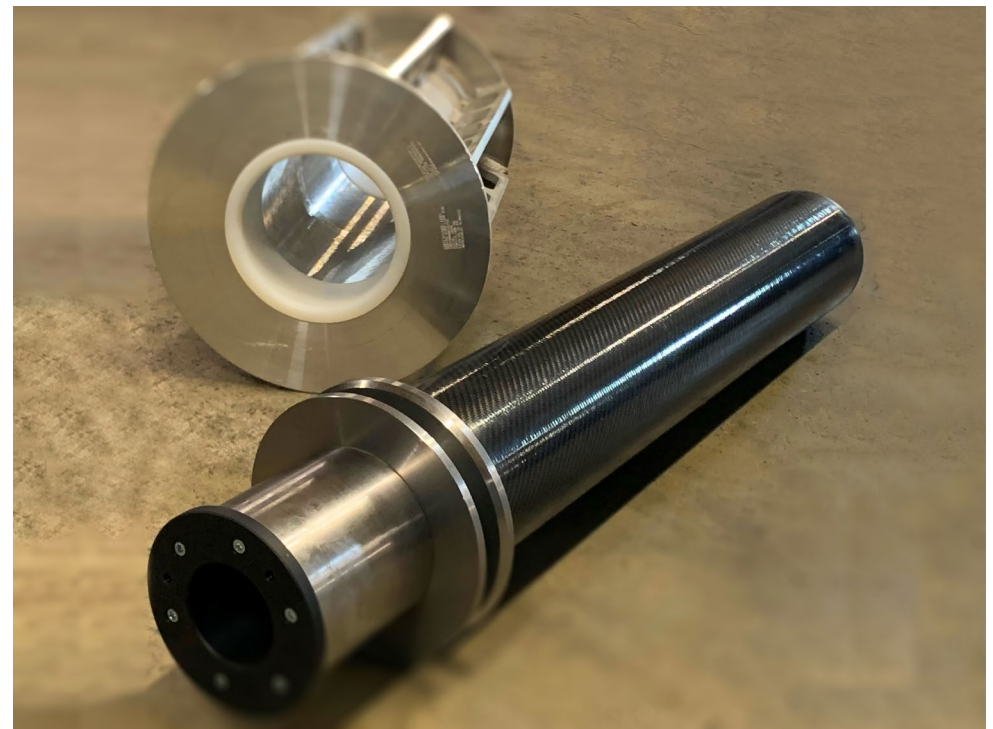

- Weight loads from 12000N to 60000 N
- Minimized core plug weight
- Meet regulations for single-person lifting

Benefits

- Easier and safer handling due to reduced weight
- Faster machine speeds and increased throughput

Applications

- Tissue Converting

Optional: Core Plug Adapter

Recommended for bigger reels.
Available in 5 different sizes (up to Ø est 457mm).
Core plug adapter Øint150 mm only.

Core Plug Specifications:

Ø mm	Ø inch	Load capacity Newton	Load capacity kg	Plug Weight kg	Length mm
76	3"	12000	1200	9	600
102	4"	15000	1500	12	600
152	6"	30000	3000	14	850
